May 15, 2020

Dear Doctors,

On May 8, 2020, the Kentucky Board of Chiropractic Examiners (Board) met for a special called meeting. Among the items discussed was an emergency motion pursuant to recently-passed SB 150 to accept online continuing education hours. The Board unanimously accepted that motion.

In Summary, Chiropractic licensees may now complete their twelve (12) hours of continuing education by a combination of online (live or recorded) or live in-person events through the 2021 relicensing cycle. Peer Review Registry licensees may also obtain their six (6) hours via an online event, in addition to a live, in-person event.

All CEs must still be board approved. A complete list of approved CEs can be found on the Board's website (kbce.ky.gov) by clicking on Licensing and Renewal and then Continuing Education. This spreadsheet is updated weekly. The complete Emergency CE Motion is attached for your review. This motion is in effect for the duration of the declared state of emergency and a period of ninety (90) days thereafter.

Please contact the Board by email to kbce@ky.gov with any questions.

Sincerely,

A handwritten signature in cursive script that reads "Jeff Smith, D.C.".

Jeff Smith, D.C.
President
